

The future begins with
the seeds you plant today.

Enrollment Guide

Enroll today and start saving.

Invest some of what you earn today for what you plan to accomplish tomorrow.

Dear Wilbur-Ellis Employee:

It's a pleasure to let you know that you are eligible to enroll in the Wilbur-Ellis Company 401(k) Plan. Take a look and see what a difference the plan could make in achieving your retirement goals.

Benefit from:

Matching contributions. Your Company helps your contributions grow through a generous match—it's like getting "free" money. Please note that employer contributions are subject to your plan provisions. That's why it makes good financial sense to take advantage of this great benefit today!

Convenience. Your contributions are automatically deducted from your paycheck.

Tax savings now. Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

Tax-deferred savings opportunities. You pay no taxes on any pretax earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

Portability. You can roll over eligible savings from a previous employer into this Plan. You can also take your plan vested account balance with you if you leave the company.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio.

Automatic annual increases. Save a little more each year, the easy way — the Annual Increase Program automatically increases your contribution each year.

Online beneficiary. With Fidelity's Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

Catch-up contributions. If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional catch-up contribution of \$7,500 in 2024.

Para ayuda en Español, comuníquese con los representantes de Fidelity, quienes están a su disposición para ayudarle desde las 8:30 a.m. a las 8:00 p.m. en su huso horario local, llamando al número 1-800-587-5282.

To learn more about what your plan offers, see "Frequently asked questions about your plan" later in this guide.

Participate in your plan and invest in yourself today.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

You become eligible to participate in the Plan when you are at least age 18, work at least 30 hours per week, and have 30 days of service. You are eligible to participate on the first of the month following completion of thirty days of service (your entry date). Any enrollment /deferral election made prior to your entry date will pend until that date.

If you have not enrolled in the Plan within 35 days following your entry date, you will be automatically enrolled in the Plan at a contribution rate of 3% of your pretax eligible earnings. Your contributions will be invested in the Vanguard Target Retirement Fund, the Plan's default fund. We encourage you to take an active role in the Plan and to choose a contribution rate and investment options that are appropriate for you. If you do not wish to contribute to the Plan, you must change your contribution rate to 0%. You may change your contribution rate at any time by logging on to www.401k.com or by calling Fidelity at 800-835-5095.

How do I enroll in the Plan?

You may enroll in the Plan by logging on to Fidelity NetBenefits® at www.401k.com or by calling the Fidelity Retirement Benefits Line at 800-835-5095.

Your enrollment is effective as soon as administratively feasible, allowing for information to be updated as payroll cycles complete.

What is the Roth contribution option?

A Roth contribution to your retirement savings plan allows you to make after-tax contributions

and take any associated earnings completely tax free at retirement - as long as the distribution is a qualified one. A qualified distribution, in this case, is one that is taken at least five tax years after your first Roth contribution and after you have attained age 59½, or become disabled or die. Through automatic payroll deduction, you can contribute between 1% and 75% of your eligible pay as designated Roth contributions, up to the annual IRS dollar limits.

Find more information online within the "Learn" section of NetBenefits®.

How much can I contribute?

Through automatic payroll deduction, you may contribute up to 75% of your eligible pay on a pretax or Roth basis up to the annual IRS elective deferral limits. You can request to change your contribution amount by logging on to Fidelity NetBenefits® at www.401k.com. In addition, you can automatically increase your retirement savings plan contribution each year through the Annual Increase Program. To sign up, visit Fidelity NetBenefits® or call 800-835-5095 for more information.

What is the Annual Increase Program (AIP)?

Plan participants will be enrolled in the Annual Increase Program - a convenient way to help boost workplace savings contributions on a regular basis to keep on track to meet your retirement goals. Each year, plan participants contributing less than 10% will see their contribution rate increase by 1% until they reach the 10% employee contribution threshold, unless they elect otherwise. If you would prefer to elect an annual increase percentage different from the designated 1%,

or if you elect not to participate in the Annual Increase Program, please contact Fidelity at 800-835-5095 or by going online and indicate your preferences.

What is the IRS contribution limit?

The IRS contribution limit for 2024 is \$23,000.

If you will be at least age 50 during the year, your plan may allow you to defer an additional \$7,500 as catch-up contributions.

Does the Company contribute to my account?

The Company helps your retirement savings grow by matching your contributions. The Company may match 50% of the first 6% of your pretax contributions. The company will also fund a fixed 4% Non-elective contribution for participants hired after 07/01/2022. Matching contributions are invested in the same investment options as those you select for your 401(k) contributions.

Long-term, part-time employees are not eligible to receive any matching contributions.

How do I designate my beneficiary?

Fidelity's Online Beneficiaries Service, available through Fidelity NetBenefits®, offers a straightforward, convenient process that takes just minutes. Simply log on to NetBenefits® at www.401k.com and click "Beneficiaries" in the About You section of Your Profile.

What are my investment options?

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The 25 investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online.

Any future contributions to your account that you have not directed to a specific investment option in the Wilbur-Ellis Company 401(k) Plan

will be invested in the Vanguard Target Retirement Fund. You can reallocate the funds in which your future contributions will be invested at any time. Changes must be made in 1% increments.

How do I change where my existing balances are invested?

You can make exchanges (transfers) on any day among the funds in which your existing balances are invested. Exchanges can be made in dollar amounts, percentages, or shares. Although Plan rules may permit exchanges on a daily basis, mutual fund companies reserve the right to limit or prohibit short-term or excessive trading in their funds to protect the long-term interests of all shareholders in the funds. In addition, short-term trading fees may apply to certain exchanges. Please refer to the individual fund prospectuses for further information.

What catch-up contribution can I make?

If you have reached age 50 or will reach 50 during the calendar year January 1 – December 31 and are making the maximum plan or IRS contribution, you may make an additional catch-up contribution each pay period. The maximum annual catch-up contribution is \$7,500. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in \$500 increments.

When am I vested?

You are immediately 100% vested in your own contributions to the Plan, as well as any associated earnings. The Company's matching contributions and non-elective contributions are vested according to the following schedule:

Years of service	Vested percentage
< 1	0%
1	20%
2	40%
3	60%
4	80%
5+	100%

If you leave Wilbur-Ellis before you are 100% vested, the non-vested portion of your company matching contributions are forfeited and returned to the Plan.

Can I take a loan from my account?

You may borrow from the contributions you have made to your account. Generally, the Plan allows you to borrow up to 50% of your vested account balance. The minimum loan amount is \$1,000, and must not exceed \$50,000. Any outstanding loan balances over the previous 12 months may reduce the amount you have available to borrow.

You may have two loans outstanding at a time: either two general purpose loans or one general purpose loan and one principal residence loan. You then pay the loan back into your account, plus interest, through payroll deductions. The maximum repayment period is 5 years for general purpose loans and 10 years for principal residence loans. The cost to initiate a loan is \$50, and there is an annual maintenance fee of \$25. The initiation and maintenance fees will be deducted directly from your individual plan account.

If you fail to repay your loan (based on the original terms of the loan), it will be considered in "default" and treated as a distribution, making it subject to income tax and possibly to a 10% early withdrawal penalty. Defaulted loans may also impact your eligibility to request additional loans.

Learn more about and/or request a loan online, or by calling the Retirement Benefits Line at 800-835-5095.

Can I make withdrawals?

Withdrawals are generally permitted from the Plan under the following circumstances: when you terminate your employment, retire, reach age 59½, or suffer a severe financial hardship, as defined in the Plan.

Keep in mind that withdrawals are subject to income taxes and possible early withdrawal penalties. Withdrawals are subject to 20% mandatory federal income tax withholding,

unless it is rolled directly over to an IRA or another employer plan. (You may owe more or less when you file your income taxes.)

If you are under age 59½, the taxable portion of your withdrawal is also subject to a 10% early withdrawal penalty, unless you qualify for an exception to this rule. The plan document and current tax laws and regulations will govern in case of a discrepancy.

Be sure you understand the tax consequences and your plan's rules for distributions before you initiate a distribution. You may want to consult your tax adviser about your situation. To learn more about and/or to request a withdrawal, log on to Fidelity NetBenefits® at www.401k.com or call the Fidelity Retirement Benefits Line at 800-835-5095.

When you leave the Company, you can withdraw contributions and any associated earnings. If your vested account balance is greater than \$1,000, you can leave all contributions and any associated earnings in the Plan. If your account balance is less than \$1,000 it will automatically be distributed to you one year after your termination date. Refer to the Summary Plan Description for more information.

Can I move money from another retirement plan into my account in Wilbur-Ellis Company 401(k) Plan?

Roll-in contributions are accepted into the Wilbur-Ellis Company 401(k) Plan. You are permitted to roll-in eligible pretax contributions from another 401(a), including 401(k) plans, 403(a), 403(b), conduit IRAs, or governmental 457(b) retirement plan accounts. You may also roll-in eligible pretax contributions from a traditional individual retirement account (IRA) and non-conduit IRAs (including SEP & Simple IRAs). Distributions from Simple IRAs may only be rolled into the Plan if the distribution is made at least two years from the date you first participated in the Simple IRA.

You are permitted to roll over eligible pretax or Roth contributions from another employer's

retirement plan account or eligible pretax or Roth contributions from another qualified retirement plan.

For details, contact a representative through the Retirement Benefits Line at 800-835-5095.

Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.

How do I access my account?

You can access your account online through Fidelity NetBenefits® at www.401k.com or call the Retirement Benefits Line at 800-835-5095 to speak with a representative or use the automated voice response system, virtually 24 hours, 7 days a week.

Where can I find information about modeling tools and other plan features?

By logging on to NetBenefits at www.401k.com you can access loan modeling tools that illustrate the potential impact of a loan on the long-term growth of your account. You will also find a withdrawal modeling tool, which shows the amount of federal income taxes and early withdrawal penalties you might pay, along with the amount of earnings you could potentially lose by taking a withdrawal. To obtain more information about loans, withdrawals, and other plan features, log on to www.401k.com or call the Fidelity Retirement Benefits Line at 800-835-5095 to speak with a representative or use the automated voice response system, virtually 24 hours, 7 days a week.

Investment Options

Here is a list of investment options for Wilbur-Ellis Company 401(k) Plan. For up-to-date performance information and other fund specifics, go to www.401k.com.

Target Date Funds

Placement of investment options within each risk spectrum is only in relation to the investment options within that specific spectrum. Placement does not reflect risk relative to the investment options shown in the other risk spectrums.

Investment options to the left have potentially more inflation risk and less investment risk

Investment options to the right have potentially less inflation risk and more investment risk

Vanguard Target Retirement 2020 Fund
Vanguard Target Retirement 2025 Fund
Vanguard Target Retirement Income Fund

Vanguard Target Retirement 2030 Fund
Vanguard Target Retirement 2035 Fund
Vanguard Target Retirement 2040 Fund

Vanguard Target Retirement 2045 Fund
Vanguard Target Retirement 2050 Fund
Vanguard Target Retirement 2055 Fund
Vanguard Target Retirement 2060 Fund
Vanguard Target Retirement 2065 Fund
Vanguard Target Retirement 2070 Fund

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

The chart below lists the assigned fund Wilbur-Ellis Company 401(k) Plan believes will best fit your diversification needs should you not select an investment option.

Your Birth Date*	Fund Name	Target Retirement Years

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 01/31/2024. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

Investment Options

Before investing in any mutual fund, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

American Funds The Growth Fund of America® Class R-6

VRS Code: 885043

Fund Objective: The investment seeks growth of capital.

Fund Strategy: The fund invests primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital. It may invest up to 25% of its assets in securities of issuers domiciled outside the United States. The investment adviser uses a system of multiple portfolio managers in managing the fund's assets. Under this approach, the portfolio of the fund is divided into segments managed by individual managers.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 11/30/1973, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

Baird Core Plus Bond Fund Class Institutional

VRS Code: 889366

Fund Objective: The investment seeks an annual rate of total return, before fund expenses, greater than the annual rate of total return of the Bloomberg U.S. Universal Bond Index.

Fund Strategy: The fund normally invests at least 80% of its net assets in the following types of U.S. dollar-denominated debt obligations: U.S. government and other public-sector entities; asset-backed and mortgage-backed obligations of U.S. and foreign issuers; corporate debt of U.S. and foreign issuers. It invests primarily in investment-grade debt obligations, but may invest up to 20% of its net assets in non-investment grade debt obligations (sometimes referred to as "high yield" or "junk" bonds).

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Bloomberg U.S. Universal Index is an unmanaged market value-weighted performance benchmark for the U.S. dollar-denominated bond market, which includes investment-grade, high yield, and emerging market debt securities with maturities of one year or more.

Baron Growth Fund Institutional Shares**VRS Code:** 885220**Fund Objective:** The investment seeks capital appreciation through long-term investments primarily in securities of small-sized growth companies.**Fund Strategy:** The fund invests for the long term primarily in equity securities in the form of common stock of U.S. small-sized growth companies. BAMCO, Inc. ("BAMCO" or the "Adviser") defines small-sized companies as those, at the time of purchase, with market capitalizations up to the largest market cap stock in the Russell 2000 Growth Index at reconstitution, or companies with market capitalizations up to \$2.5 billion, whichever is larger.**Fund Risk:** Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The Russell 2000[®] Growth Index is an unmanaged market capitalization-weighted index of growth-oriented stocks of U.S. domiciled companies that are included in the Russell 2000 Index. Growth-oriented stocks tend to have higher price-to-book ratios and higher forecasted growth values.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/29/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 12/30/1994, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Dodge & Cox International Stock Fund Class I**VRS Code:** 846960**Fund Objective:** The investment seeks long-term growth of principal and income.**Fund Strategy:** Under normal circumstances, the fund will invest at least 80% of its total assets in equity securities of non-U.S. companies, including common stocks, depositary receipts evidencing ownership of common stocks, certain preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks. The fund typically invests in medium-to-large well-established companies based on standards of the applicable market.**Fund Risk:** Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

**Footnotes:**

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

Dodge & Cox Stock Fund Class I**VRS Code:** 894769**Fund Objective:** The investment seeks long-term growth of principal and income; a secondary objective is to achieve a reasonable current income.**Fund Strategy:** The fund invests primarily in a diversified portfolio of equity securities. It will invest at least 80% of its total assets in equity securities, including common stocks, depository receipts evidencing ownership of common stocks, certain preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks. The fund may invest up to 20% of its total assets in U.S. dollar-denominated securities of non-U.S. issuers traded in the United States that are not in the S&P 500 Index.**Fund Risk:** Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
-

Fidelity® 500 Index Fund**VRS Code:** 002328**Fund Objective:** Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.**Fund Strategy:** Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.**Fund Risk:** Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments.**Fund short term trading fees:** None**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.
- Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

New York Life Anchor Account

VRS Code: 908006

Fund Objective: The Anchor Account is a pooled separate account group annuity contract that seeks to provide a low-risk, stable investment option. The account aims to provide a competitive yield and limited volatility, with a guarantee of principal and accumulated interest, subject to the terms of the contract.

Fund Strategy: The Anchor Account is a stable value product that guarantees principal and accumulated interest and is designed to allow participant transactions at book value. The guarantees are provided to participating plans through a group annuity contract issued by New York Life Insurance Company (New York Life). Anchor Account contributions are directed to a New York Life pooled separate account which primarily invests in a diversified portfolio of high-quality, fixed income securities. The Anchor Account crediting rate is subject to change daily. New York Life issues the Anchor Account group annuity contract and provides the guarantee of principal and accumulated interest.

Fund Risk: The fund is backed by a diversified portfolio of fixed-income assets held in the general account of the issuer. Guarantees are subject to the claims paying ability of the issuer. Restrictions or fees may apply to exchanges or withdrawals. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance or may restrict withdrawals in these events. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

Fund short term trading fees: None

Who may want to invest:

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide a declared crediting rate that is reset on a periodic basis.

Footnotes:

- The investment option is an annuity. It is managed by New York Life Insurance Company. This description is only intended to provide a brief overview of the investment option.
 - This investment option is not a mutual fund.
-

PIMCO Total Return Fund Institutional Class

VRS Code: 899622

Fund Objective: The investment seeks maximum total return, consistent with preservation of capital and prudent investment management.

Fund Strategy: The fund invests at least 65% of its total assets in a diversified portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It invests primarily in investment-grade debt securities, but may invest up to 20% of its total assets in high yield securities. It may invest up to 30% of its total assets in securities denominated in foreign currencies, and may invest beyond this limit in U.S. dollar-denominated securities of foreign issuers.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

Putnam Large Cap Value Fund Class R6

VRS Code: 889764

Fund Objective: The investment seeks capital growth and current income.

Fund Strategy: The fund invests mainly in common stocks of U.S. companies, with a focus on value stocks that offer the potential for capital growth, current income, or both. Value stocks are issued by companies that the adviser believes are currently undervalued by the market. The adviser may consider, among other factors, a company's valuation, financial strength, growth potential, competitive position in its industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell investments.

Fund Risk: Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
 - The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 07/02/2012. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 06/15/1977, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.
-

Vanguard Emerging Markets Stock Index Fund Admiral Shares

VRS Code: 895874

Fund Objective: The investment seeks to track the performance of a benchmark index that measures the investment return of stocks issued by companies located in emerging market countries.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the FTSE Emerging Markets All Cap China A Inclusion Index. It invests by sampling the index, meaning that it holds a broadly diversified collection of securities that, in the aggregate, approximates the index in terms of key characteristics.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is willing to accept the higher degree of risk associated with investing in emerging markets.
- Someone who is seeking to complement a portfolio of domestic investments and/or international investments in developed countries with investments in developing countries, which can behave differently.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The FTSE Emerging Markets All Cap China A Inclusion Index is a market capitalization weighted index representing the performance of large, mid and small cap stocks in Emerging markets.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 06/23/2006. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 05/04/1994, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Mid-Cap Index Fund Institutional Shares

VRS Code: 821348

Fund Objective: The investment seeks to track the performance of the CRSP US Mid Cap Index that measures the investment return of mid-capitalization stocks.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the CRSP US Mid Cap Index, a broadly diversified index of stocks of mid-size U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The CRSP US Mid Cap Index targets inclusion of the U.S. companies that fall between the top 70%-85% of investable market capitalization.

Vanguard Short-Term Treasury Fund Admiral Shares

VRS Code: 845444

Fund Objective: The investment seeks current income while maintaining limited price volatility.

Fund Strategy: The fund invests at least 80% of its assets in U.S. Treasury securities, which include bills, bonds, and notes issued by the U.S. Treasury. It is expected to maintain a dollar-weighted average maturity of 1 to 4 years.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking a fund that invests primarily in securities issued by the U.S. government and its agencies or instrumentalities.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- Weighted average maturity (WAM) is the weighted average of all the maturities of the securities held in a fund. WAM for money market funds can be used as a measure of sensitivity to interest rate changes. Generally, the longer the maturity, the greater the sensitivity. WAM for money market funds is based on the dollar-weighted average length of time until principal payments must be paid, taking into account any call options exercised by the issuer and any permissible maturity shortening devices, such as demand features and interest rate resets. For bond funds, WAM can be used as a measure of sensitivity to the markets. Generally, the longer the maturity, the greater the sensitivity. The WAM calculation for bond funds excludes interest rate resets and only takes into account issuer call options if it is probable that the issuer of the instrument will take advantage of such options.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 02/13/2001. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 10/28/1991, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Small-Cap Index Fund Institutional Shares

VRS Code: 823466

Fund Objective: The investment seeks to track the performance of the CRSP US Small Cap Index that measures the investment return of small-capitalization stocks.

Fund Strategy: The fund employs an indexing investment approach designed to track the performance of the CRSP US Small Cap Index, a broadly diversified index of stocks of small U.S. companies. The advisor attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Fund Risk: The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
- The CRSP US Small Cap Index includes U.S. companies that fall between the bottom 2%-15% of the investable market capitalization. There is no lower limit in market capitalization, other than what is specified by investability screens.
- The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 07/07/1997. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 10/03/1960, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Vanguard Target Retirement 2020 Fund

VRS Code: 841078

Fund Objective: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation.

Fund Strategy: The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2020 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.
-

Vanguard Target Retirement 2025 Fund

VRS Code: 847734

Fund Objective: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation.

Fund Strategy: The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2025 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

Fund Risk: The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Vanguard Target Retirement 2030 Fund

VRS Code: 841080

Fund Objective: The investment seeks to provide capital appreciation and current income consistent with its current asset allocation.

Fund Strategy: The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2030 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.

-

Vanguard Target Retirement Income Fund

VRS Code: 847728

Fund Objective: The investment seeks to provide current income and some capital appreciation.

Fund Strategy: The fund invests in a mix of Vanguard mutual funds according to an asset allocation strategy designed for investors currently in retirement. Its indirect bond holdings are a diversified mix of short-, intermediate-, and long-term U.S. government, U.S. agency, and investment-grade U.S. corporate bonds; inflation-protected public obligations issued by the U.S. Treasury; mortgage-backed and asset-backed securities; and government, agency, corporate, and securitized investment-grade foreign bonds issued in currencies other than the U.S. dollar.

Fund Risk: The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments carry issuer default and credit risk, inflation risk, and interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Principal invested is not guaranteed at any time, including at or after retirement. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

Who may want to invest:

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

Footnotes:

- This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

What is the Roth 401(k) Contribution Option?

A Roth contribution is available to employees who participate in the 401(k) plan. For payroll purposes, Roth contributions are treated as after tax. This feature will allow participants to make Roth contributions to their plan while taking their earnings completely **tax-free** at retirement—as long as the withdrawal is a qualified one. A qualified withdrawal is one that can be taken five tax years after the year of the first Roth contribution *and* after the participant has attained age 59½, has become disabled, or has died.

If you qualify to make traditional 401(k) contributions, you are eligible for a Roth 401(k) contribution.

How does a Roth 401(k) contribution option work?

You elect an amount of your salary that you wish to contribute to the Roth source, just as you would for your traditional 401(k). The contribution is based on your eligible compensation, not on your net pay — for example, if your total annual eligible compensation is \$40,000 per year and you elect a 6% deferral amount, then \$2,400 per year would go into your Roth 401(k) account.

Unlike your traditional 401(k) pretax contribution, with a Roth 401(k) contribution, you pay the taxes now on the contributions you make—but later your earnings are all tax-free, if you meet certain criteria.

Example: Sally earns \$40,000 and has elected to put 6% toward her Roth 401(k) contributions and 6% toward her traditional 401(k) pretax contributions on a monthly basis.

	ROTH 401(k)*	TRADITIONAL 401(k)*
Sally's monthly contribution into each account	\$200	\$200
Sally's reduction in take-home pay	\$200	\$156

*This hypothetical example is based solely on an assumed federal income tax rate of 22%. No other payroll deductions are taken into account. Your own results will be based on your individual tax situation.

Your combined Roth and traditional pretax 401(k) contributions cannot exceed the IRS limits for the year.

Would a Roth 401(k) contribution option benefit me?

The potential benefits of Roth 401(k) contributions really depend on your personal situation, but are mainly focused on your existing tax rate and your anticipated tax rate at the time of retirement. If you are contributing to a Roth, you are giving up a tax break today for a tax break in the future.

Therefore, a Roth contribution might benefit you if your tax rate in retirement were **higher** than it had been during the years you contributed.

If your tax rate were **lower** in retirement, then a traditional 401(k) might be more beneficial to you than the Roth option. Talk with a tax professional for more information on how to determine if Roth 401(k) contributions are right for you.

Is a traditional pretax 401(k) still beneficial?

Yes. For many participants, a traditional pretax 401(k) will still be the most beneficial type of retirement savings plan. We do not know what the future holds regarding tax rates. Therefore, it is not possible to predict with certainty which type of 401(k) savings will be most beneficial to a participant.

Remember, because Roth 401(k) contributions are made after tax, you may take home less money in your paycheck than you would if you contributed to a traditional pretax 401(k).

Plan Name: Wilbur-Ellis Company 401(k) Plan

Plan #: 26032

Incoming Rollover Instructions

"Rolling over" money into the Wilbur-Ellis Company 401(k) Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Rollover Contribution Form for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. There are two distribution check payable options:

Option 1.

The check can be made payable to Fidelity Investments Institutional Operations Company LLC (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.)

Note: This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 ½.

Option 2.

If the distribution was originally made payable directly to you, you must send your rollover contribution to Fidelity via a certified check or money order only for the amount you are rolling over. (Personal checks are not acceptable.)

Note: If your distribution is initially received as a check made payable to you, your rollover must be completed within 60 days of receipt of the distribution. Your previous administrator will be required to withhold income taxes. As a result, you will not be able to roll over 100% of your eligible distribution unless you have extra savings available to make up the amount withheld. You must also roll over that amount within 60 days of receipt of your distribution. If you do not make up the amount withheld, that amount will be considered a withdrawal from the previous program and the taxable portion will be subject to ordinary income taxes and possibly a 10% early withdrawal penalty.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA.

The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

Step 2. Initiate your rollover request

Please log on to NetBenefits® at www.401k.com or the NetBenefits mobile app which you can get with the below QR code to initiate your request or complete the Incoming Rollover Contribution Form. Please be sure to complete all items, and sign the form if indicated.

Mobile App QR code:

Failing to properly complete the process will result in your transaction not being processed and your check being returned to you. This form and any separate documentation required by your Plan Sponsor will be reviewed through an automated process. Fidelity will not consider or act upon any unrequested documentation or any information provided outside the areas of the form where specific information has been requested.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not made investment elections for rollover contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so via NetBenefits or by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous plan sponsor or IRA custodian for verification. An incorrect plan type could invalidate your rollover.

Step 3. Mail the information

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:

Fidelity Investments
Client Service Operations
P.O. Box 770003
Cincinnati, OH 45277-0065

Overnight Address:

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway
Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Wilbur-Ellis Company 401(k) Plan, you can log on to Fidelity NetBenefits® at www.401k.com to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **800-835-5095**. Please be sure you have beneficiary information for the Plan on file.

To establish or change your beneficiary information for Wilbur-Ellis Company 401(k) Plan, please access www.401k.com.

You should make a copy of the check and the Incoming Contribution Application for your records.

Plan Name: Wilbur-Ellis Company 401(k) Plan

Plan #: 26032

Incoming Rollover Contribution Application

Section One: Participant Information (please print)

The following section must be completed entirely to ensure that your account is properly set up.

Social Security #: -- Hire Date: ____/____/____ Birth Date: ____/____/____

Participant Name (first, MI, last): _____

Participant Address: _____

City: _____ State: _____ ZIP: _____

Phone (day): _____ Phone (evening): _____

Section Two: Rollover Contribution Information

Acceptable rollover sources

The Plan will accept rollovers of eligible distributions you receive as a participant from the following types of plans: 401(a) plans, qualified plans (including 401(k) plans); 403(b) plans; governmental 457(b) plans; Roth 401(k)s, Roth 403(b)s, Roth 457(b)s. The Plan will also accept rollovers of eligible distributions you may receive as a spousal beneficiary or a participant in one of these plans, and distributions you may receive as an alternate payee under a QDRO. Additionally, the plan will accept rollover of taxable amounts from conduit ("rollover") IRAs.

Enclosed Contribution:

\$ Pretax dollars

Please provide the following information concerning the origin of this rollover: Plan name: _____

401(k) Plan

Governmental 457(b) Plan

Conduit IRA (rollover IRA)

401(a) Plan

Roth 401(a)/401(k) Plan

Non-Conduit IRA

403(b) Plan

Roth 403(b) Plan

745660

028880001

Unacceptable rollover sources

The Plan cannot accept money from the following sources: after-tax rollover contributions.

Section Three: Investment Elections

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

To make an investment election or to request a fund prospectus please log on to www.401k.com.

Section Four: Participant Certification

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested according to the investment election on file at Fidelity. I also acknowledge that if I do not already have investment elections on file at Fidelity, my rollover contribution will be invested in my plan's default investment option.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Wilbur-Ellis Company 401(k) Plan.
